DETAILED ACTION

Election/Restrictions

1. Claims 7-9 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention or species, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 05 April 2006. The traversal is on the ground(s) that the examiner gave no reason for the restriction between groups I and II to support the assertion that the light transmitting member may be co-extruded with the abrasive substrate. This is not found persuasive because the product of claim 1 does not require method of manufacturing of claim 8 or the apparatus used to manufacture the product as set forth in claim 9, as the product does not require a hole or window be formed in the pad, and as the light transmitting member can be the entire pad, co-extruded with the abrasive. The examiner agrees with applicant's arguments on the restriction of groups I and III, and claim 12 will be examined with claims 1-6, 10 and 11.

Information Disclosure Statement

2. The information disclosure statements (IDS) submitted on 07 July 2004, 19 July 2004, 07 September 2004 and 29 June 2005 are in compliance with the provisions of 37 CFR 1.97 and have been considered by the examiner.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 3723

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-6 and 10-12 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by EP 1 252 973 A1 (cited by applicant). '973 discloses the claimed invention, see the entire document, but note especially paragraphs 0011, 0022, 0047, 0050, 0059, 0072-0082.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Other polishing pads with light transmitting members are cited of interest.
